

DREAM MAKEOVER

World Class Dentistry --- Small Town Values

People with a beautiful smile radiate a warmth that attracts others to them instantly. Just ask Mary Cox. Mary can't help but flash her pearly whites since receiving her gorgeous new smile from Drs. Mike and Joni Kluth and team at Kluth Family and Cosmetic Dentistry.

Mary was chosen from hundreds of applicants to receive an extreme smile makeover by the doctors . . . who practice family & general dentistry in Alexandria with an emphasis on cosmetics dentistry and smile transformation.

Before

After

"We wanted to give back to our community . . . and what better way than to change a life than with the gift of a beautiful smile."

A smile is the #1 feature that makes people attractive. Mary was already beautiful on the inside . . . as we discovered during our candidate selection process, but she never had the resources available to seek out help to correct her teeth and give her a nice smile. We wanted to do that for her."

The Drs. Kluth utilized all aspects of dentistry during the course of Mary's smile enhancement. From periodontal treatments for healthy gums, to endodontics for diseased teeth, to egg-shell thin porcelain veneers (provided by Master Ceramist Dwight Rickard of Preferred Dental Ceramics) bonded to Mary's existing teeth to give her that dazzling new smile she now flashes everywhere she goes.

Others volunteered with the doctors and staff to give Mary a total transformation from "before" to "after". Haircut/color was provided by (Sally Sandfur at the Body Clinic 724-6247). Makeup was provided by a Mary Kiy consultant (Mary Jane Brobet 765-922-4577) to complete Mary's new look. **As you can see in Mary's "after" photo donated by Expression Photography (Nancy Wood 724-7385, the results are nothing less than stunning. Mary says the makeover was an answer to her prayers.**

"It is a wonderful feeling!"
